ELBA JUNIORS PUT SPARK IN GRID PICTURE

The Elba Junior High football team, brightest spot in athletics at Elba so far this year, won their first game of the year as they beat the mighty Bobcat Juniors Monday night in Opp 7-6 in a rough-and-tumble defensive game.

Opp drew first blood in the second quarter on an end-around play, but their joy was short-lived. When Opp kicked to Elba, following the TD, Claude Devane gathered the ball on his own 30-yard line and raced 50 yards behind terrific blocking to the Opp 20.

Fred Smith, right halfback, took it over from the two several plays later to tie the score and the margin of victory was the extra point made by Sammie Edmondson.

The second half was a rock-on-rock - em defensive battle with Elba making several threats while holding the Bobcats practically motionless.

Coch Bill Strickland said, "We played a good alert defensive game. The boys hit hard and never gave up. Several times they threatened to score and we rose to the occasion and stopped them. Jimmy Enz's excellent punting kept them in the hole all night."

Claude Devane called a good game at quarterback. Fred Smith was the leading ground gainer and set up the winning TD.

Pease Tops
Coach Strickland named Charles Pease, center, as the top defensive player of the night and praised Bert Casey and Harold Cain for their top offensive work. He also named Joe Spurlin and Terry Canady as top-notch performers at defensive end.

The Juniors met the Troy Juniors in Troy Saturday at 10 a.m. This will be their third game of the season.

Officers Elected By Elba NFA Group

The Elba NFA Chapter met recently to make plans for the 1959-60 school year. Officers elected for the year are: Jimmie Bullard, president; Patrick Reynolds, vice president; Ed E. Marshall Jr., secretary; Robert E. Williams, treasurer; John H. Carpenter, reporter; Willie J. Silver, historian; Charles Hooks, song and cheer leader; Ulysses Rowe, watchman, and Edward Porter, parliamentarian.

Jimmie Bullard is NFA president and James I. Dawson is Vocational Agriculture Teacher and NFA Advisor.

Cheerleaders For Juniors Organized

A group of Junior Cheerleaders has been formed at Elba High School to act in the same capacity at Junior High football games as the Senior cheerleaders do at varsity games.

This group is composed of Jan Dowdy, Gail Rue, Charlotte Rushing, Jeanette Matthews, Elaine Hughes and Linda Padgett.

ANOTHER DEADLINE

Farmers who expect to participate in the 1960 Conservation Reserve of the Soil Bank have another deadline coming up this week, Friday, October 16, is the last date to apply for contracts to begin next year, according to Chairman Lester Gutter of the Coffee County Agricultural Stabilization and Conservation Committee.

TAKES OLD NAME

With the purchase of the interest of Gold Kist Peanut Growers by Jake Lubert Morrow, the firm is again the Morrow Gin and Peanut Company.

4-H Members To Get Free Pine Seedlings In Month

By Tom Casaday
Asst. County Agent

Did you come to the Poultry Show last Saturday in Elba? A. A. Middleton of Dothan judged the pullets. Blue ribbons winners were: Mary and Martha Dunaway, Freddy Dalrymple, Mary Jane Head, Marion Fuller and Wayne Smith.

Wade Andrews of Dothan awarded \$80.00 prize money to the ten boys and girls attending. Andrews is manager of the Sears Farm Store in Dothan.

We don't raise a lot of broilers or produce a great many eggs in Coffee county, but for either eggs or broilers or both I think we can certainly produce more than we are at present. Somebody's going to grow the broilers and produce the eggs. We ought to be able to compete successfully.

Beef Cattle
Coffee County 4-H Club boys and girls have some 35 steers on feed. Chances are that they won't make a lot of money on these steers, but the corn they use in feeding these calves will bring more by feeding than by selling on the open market.

I am looking forward and I am sure a lot of folks who are interested in beef cattle are also looking forward to the fat calf shows and sales next spring.

We have six steers in the Zion Chapel community, ten in the New Hope community. Four or five in the Kingston community. In a later column I will give the names of the boys and girls and their communities so you can go by and see them when riding around some afternoon.

Demonstrations
I read in the paper yesterday where a two months old baby was apparently killed by a rat. Knowing that rats are probably on the increase, and that we should do something about them, we started last week giving a series of demonstrations on rat control. Our Coffee County boys are learning the very latest method in killing rats and mice; they are learning how to place baits to attract the rats. They are going to use both dry bait and water bait in an effort to kill as many rats as possible.

In any rat killing program, it's a lot better if neighbors will put on a rat killing campaign at the same time. In encouraging the boys to get their neighbors to also put out rat poison in safe places. Aside from damaging feed, corn, and other things of value on the farm, rats are carriers of diseases and filth. I saw a 30-minute film a year or so ago on rats and believe me they are really filthy animals.

Pine Seedlings
Jim Owens of the International Paper Company with headquarters in Elba and Troy told me the other day that his company would have free pine seedlings for Coffee County 4-H Club members. I was glad to hear from him because several boys over the county have been asking about the pine seedlings. Chances are it will be mid-December before we can distribute the pines to the boys. We will also so many per club and try to take care of all the boys we can.

CARS COLLIDE
A car driven by Thomas Gordon Jacobs, of Rt. 1, Elba, and a car driven by Leon Huggins, 30, of Opp, collided Thursday, October 8, at 10:05 a.m. at the intersection of York and Buford Sts., according to Patrolman Driggers who investigated. Front fenders of both cars were damaged. No one was arrested.

Elba FHA Exhibit Wins Third Place

The Elba High School FHA exhibit in the Alabama State Fair, Birmingham, was awarded third place after it was prepared by Mrs. Sybil Taylor. It was the best of its kind in the class.

Thirty-three members of the Elba FHA attended the Fair Wednesday, October 7, as guests of the Fair for City Schools Children's Day.

The Elba exhibit illustrated the theme "Hitch Your Wagon to the Stars", the four stars being Christian character, happy home, good health and noble work.

MRS. LUCINDA SUSIE FOREHAND

Mrs. Lucinda Susie Forehand, 89, of Rt. 1, Elba, died of her home Monday, October 6, after a long illness. She leaves five daughters: Mrs. Ida Mae Nolin and Mrs. R. B. Miller, both of Rt. 1, Elba; Mrs. G. T. Arnold of Rt. 2, Troy; Mrs. G. A. Miller of Phenix City; and Mrs. Lavender Creamer of Phenix, Ariz.; three sons: N. B. Forehand of Flagstaff, Ariz.; James Earl Forehand of Safford, Fla.; and H. R. Forehand of Largo, Fla.; 42 grandchildren and 56 great-grandchildren.

Funeral services were held from Pleasant Ridge Baptist church with the Rev. William Plant officiating. Burial was in the church cemetery.

HOME CLUB SCHEDULE
Thames, October 20, Community Center, 10 a.m., covered dish; Lee, October 20, at 1:30 p.m.; Blanton, October 21, New Home Church, 1:30 p.m.; Kingston, October 22, Club House, 1:30 p.m.; Mt. Zion, October 22, 1:30 p.m.; and Key Line, October 23, Club House, 1:30 p.m.

The Coffee County home demonstration clubs held the annual county council meeting and dress revue in Elba, Oct. 8. The meeting was called to order by Mrs. Bill Ward, president. Mrs. Jean Wakefield, assistant home demonstration agent, gave the devotion, "Apples of Gold and Baskets of Silver."

Pleasant; third vice-president, Mrs. Carroll Stephenson, Enterprise; reporter, Mrs. Paul Cain, Camp Ground; parliamentarian, Mrs. J. E. Pittman, Sr., Key Line.

Serving with these officers who were elected last year are president, Mrs. Bill Ward, Mt. Zion; second vice-president, Mrs. Fred Wood, Kingston and secretary, Mrs. W. P. Windham, Brookdale.

The movie taken at last year's dress revue was shown.

J. Wilkes, Mt. Pleasant; Mrs. Agnes Wilson, Bonnie Taylor; Mrs. Oliver Williams, Brookdale, winner; Mrs. Q. P. Complimentary gifts were given to all present. Mrs. Carlton Larkins and Mrs. Elmer Taylor had charge of this part of the program.

The Bonnie Taylor Club was awarded a small banner for having four entries in the revue.

Preliminary details for the festival have been under discussion for the past several weeks and plans began to take definite shape during the past week for this annual event when Elba rolls out the red carpet in an effort to show its visitors a good time.

**Farm Loan Group
Meets In Samson**

James S. Priddy Jr., secretary-treasurer of the Peanut National Farm Loan Association, has announced that Mr. John L. Ryan, president, and Mr. James L. Dailey, regional manager, of the Federal Land Bank of New Orleans, attended a meeting of the Association's board of directors Wednesday, October 14, at the office in Samson.

Important changes provided for in the Farm Loan Act of 1959 were discussed and steps taken to put them in force January 1, 1960.

The new act, according to the secretary - treasurer, makes it the responsibility of district banks to obtain appraisals; it removes the maximum loan limit and makes provisions for an additional loan to cover the purchase of stock. The act also provides for changing the name from national farm loan association to Federal Land Bank Association.

Mr. Priddy says that this change is welcomed because it will help farmers and the public generally to more clearly identify the local association with the Federal Land Bank which makes the loans it services.

GAS TAX JUMPS
 With the \$541 million a year increase in the federal gasoline tax that went into effect Thursday, Oct. 1, Alabama car owners will pay more than 50 cents in tax on every dollar's worth of gasoline they buy.

Farm ponds belonging to Fulton Spurlin and Dudley Littleton are in process of construction. Mr. Spurlin's pond is approximately five acres and Mr. Littleton's approximately

three acres. Both ponds will be used for livestock water purposes and managed for fish production.

Another farm pond was completed this week on the farm of B. O. Bussey, Victoria community. Most of the ponds constructed recently are now collecting water and will continue to fill during the winter months.

Those stocking new ponds or restocking old ponds should make applications for fish immediately. Delivery of broom by the State Dept. of Conservation will begin during October. Broom will be delivered next spring. We often have inquiries concerning the availability of shellcracker. Approximately 10-15 per cent of state hatchery fish are shellcracker. Private hatcheries located in Georgia have shellcracker for sale. Their number usually decrease in farm ponds as they do not reproduce as well as other species.

Shirley Carpenter will begin

Bill J. Taylor of Evergreen reported to July 21 as an aid with the Soil Conservation Service. He and his wife will be moving to Elba shortly. Their residence will be on the Brantley highway. Previous employment was with the State Highway Department and the Pits Construction Co.

Construction of a farm pond within a few days.

Livestock water ponds were completed this week on the farms of Dudley Littleton, Woodland Grove community and Fulton Spurlin, Lee community.

The ponds are in pastures where water supplies are not sufficient or are not centrally located.

They will be stocked with fish and managed for fish production. Under good management approximately 200 pounds per acre of broom and bass can be caught. The State Department of Conservation provides broom and bass for stocking ponds at no cost to the pond owner.

These ponds help to preserve the water table as more water is taken from the ground each year for farm uses, as well as industrial uses. These ponds help in holding back water that would normally rush into the small streams during heavy rains creating flood hazards.

construction of a farm pond within a few days.

Livestock water ponds were completed this week on the farms of Dudley Littleton, Woodland Grove community and Fulton Spurlin, Lee community.

The ponds are in pastures where water supplies are not sufficient or are not centrally located.

They will be stocked with fish and managed for fish production. Under good management approximately 200 pounds per acre of broom and bass can be caught. The State Department of Conservation provides broom and bass for stocking ponds at no cost to the pond owner.

These ponds help to preserve the water table as more water is taken from the ground each year for farm uses, as well as industrial uses. These ponds help in holding back water that would normally rush into the small streams during heavy rains creating flood hazards.

Elba Study Club Entertained By Miss Harper

The Elba Study Club was entertained last week at the home of Miss Lollie Harper with Mrs. Fred Harper as co-hostesses. Autumn flowers and red berries were used in the living room and on the dining table a large assemblage of giant yellow mums provided an attractive centerpiece.

Miss Mable Brunson, president, presided over the business meeting. The Condolence Committee announced that the beautifully written, Triumph over Odds, by J. Daniel Adams had been presented to the City Library in memory of Mrs. Gussie Hutchinson.

Mrs. W. C. Brazelton introduced the program. Mrs. Edwin Cooper sang "Serenade" from "The Student Prince" accompanied by Mrs. W. M. Ringdorph Jr. Mrs. John Brunson gave an interesting resume of

her trip to Europe.

The twenty-one members present were served an attractively prepared dessert plate. Halloween cups and napkins added a festive note to the fresh orange baskets that held

Elba Teacher Attends Meeting In Senate

Among those from Coffee County to attend the Public Hearings in the State Senate, was Mrs. Cleo Hawkins, president of Coffee County Classroom Teachers Association.

Mrs. Hawkins received a telegram from the A.E.A. to appear before the Senate Education Committee in opposition to the bills to abolish teacher tenure in Alabama.

The Senate Education Committee at that time voted down a proposal to allow local school boards to abolish tenure by a unanimous vote. The vote was 13 and 4. A bill to wipe it out statewide was withdrawn.

Senator Alton Turner of Lawrence sponsored both bills.

BOSS, ROBERT CANNON

AT HOME for a brief visit last week were Donald Brunson and his attractive wife who are now making their home in Tuscaloosa. Donald is studying for his master's degree at the University and this trip to see the Soile Brunson was the first break in his busy schedule.

Mrs. Brunson told us that Leon had written about the terrible storm in Tokyo where he is now stationed, but reported that miraculously no Americans were hurt.

LAST SATURDAY was a big day for our hand and aren't we glad they had these pretty new uniforms to wear when they marched into the football stadium at Auburn?

At the invitation of the Auburn Music Dept., thirty bands gathered and under one banner played the National Anthem. The students packed box lunches at home and stopped at Chevalle State Park for a picnic. It was a real treat and they made a grand showing.

ENJOYED seeing Doris and Marshall Ringold when they were here recently and little Warren was even more adorable than when he left. If that's possible! Doris told us that they were lucky to find a new apartment quite close to Marshall's work and that she's enjoying housekeeping this year as she is not teaching.

joying housekeeping this year as she is not teaching.

DID YOU MEET Mrs. Rose Smith's attractive sister "Cris-ket" who was here visiting last week? We had a most pleasant chat with them over our grocery baskets and "the mother of the bride" told us she was leaving for a week's trip to Florida where she intended to be really lazy! After the hectic preparation of a wedding we know long days in the sun will be most welcome.

You Are In This Picture-

You have noticed the biggest crowds in food stores which advertise in their local paper. That's true anywhere. There's a reason for that. They can offer the best values because they know the newspaper will tell their customers. That brings still more customers. That enables them to "turn over" their merchandise at a faster clip. Because they sell more, then can offer better values. Their values bring more customers. It's a continuous cycle.

The expanding operations of Dorsey Trailers was marked last week by the promotion of Ellie Brunson to Production Manager and Grady Thomas to Chief Inspector.

Thomas went to work at Dorsey's in 1950 as a carpenter, and after a few months was transferred to the inspection department where he has remained for the past eight years. In his new position as Chief Inspector he is responsible for the final check-out of all Dorsey trailers leaving the plant for delivery to purchasers. This function was formerly the responsibility of Henry Dorsey who was appointed assistant to the president of Dorsey Trailers and recently as director of programming.

Weather Man Smith
Beats Bureau In
Seeing Geese

J. Drayden Smith, Elba's unofficial weather man, beat the official U. S. weather bureau in sighting geese flying southward this year.

Early Monday morning Smith was telling friends that he had heard a flight of geese before dawn but they did not appear until 8 a.m. he saw another flight.

The same day an Associated Press dispatch quoted the U. S. Weather Bureau at Birmingham as having seen a flight of geese at 5 p.m.

"That means cold weather is right behind," said Weatherman Smith.

There was a story widely circulated a few months ago about a man who was doing a prosperous business selling hot dogs—good ones! Then his son came home with the story that business is bad. The father started economizing on the good ingredients in his hot dogs. Sales fell off. He bought cheaper frankfurters, and sales fell off more. He soon closed shop, a victim of scarce psychology.

Coffee county's cotton and peanut crops this year were about 25 per cent off—not a crop failure. There's a steel strike and some automobile plants will soon shut down—temporarily. Even when the strike is settled, the prices of many steel products will be up.

The current issue of the Time Magazine said that already more automobiles have been sold this year than all last year. "Despite the crippling of one of the nation's chief industries," said the First National City Bank of New York in its monthly business letter, "the economy has been strong and vigorous."

The moral: next time you hear anyone say that business is bad just tell him to go eat a GOOD hot dog.

License Deadlines
Are Drawing Near

Little more than a week remains to obtain state licenses, business and professional licenses at the office of Probate Judge J. O. English. The deadline is October 31 and a penalty will be assessed after that date.

The motor vehicle license deadline falls one day earlier this year because November 1 is the legal final date, falls on Sunday, Judge English said that a ruling from the attorney general is that the date cannot be extended even though the final date is Sunday, so all vehicle licenses must be obtained by Saturday, November 14.

RAILROADS ATTACK
"Featherbed" Rules
A stormy showdown between management and labor over the \$500 million annual featherbedding waste on the nation's railroads is imminent. Readers Digest reports in an article in the November issue of U. S. railroads are determined to moderate the work rules dating from 40 and more years ago, according to the article by Alfred Steinberg. These rules require surplus men on trains, erect jurisdictional barriers between various work groups and otherwise promote waste and inefficiency among 200,000 operating employees, the article points out.

Contract negotiations on this explosive issue will begin after November 15.

NEED FOR 100
NEW HOMES IN
ELBA STRESSED

The need for 100 houses in Elba was stressed at a round table discussion at a meeting of the Elba Chamber of Commerce Tuesday night with Curd Duke as master of ceremonies.

Taking part in the discussion were: Oscar Vaughan, executive vice president of the Elba Exchange Bank; Elba Brantley, Elba real estate man; Jerry Brunson, secretary of the First Federal Savings and Loan Assn. of Coffee county; Doster Roberts, chairman of the C. of Dorsey Trailers; and Ellie C. Housh, committee member of Dorsey Trailers.

Elle Brunson said that if rental property were available, 100 additional families would move to Elba immediately from the production department of Dorsey's, and this was followed by a comment from Mr. Vaughan that expenditures locally exceed the equivalent of a new industry moving into Elba. Mr. Brunson said that now more than half the workers in the production department at Dorsey's live out of town.

The panel discussion was the climax of a business meeting of the Chamber with President E. M. Warr presiding.
